

Artificial Intelligence & Data

In AI & Data we live and breathe Data!

What we do:

- ✓ We help clients leverage the power of data, analytics, robotics, and cognitive technologies to transform their organisations.
- ✓ We help our clients design and implement next-gen solutions to better manage, protect, share and innovate with their data.
- ✓ We unravel complex commercial problems and develop innovative solutions that exceed client expectations.
- ✓ We ensure that the data our clients are using is of high quality

What skills & backgrounds are we looking for?

- ✓ Excellent **written and oral communication skills**
- ✓ Able to thrive in **collaborative environments** and enjoy working on ambiguous and fuzzy problems.
- ✓ **Data driven** people with strong numerical backgrounds
- ✓ Problem solvers that can **combine creativity with logical thinking**
- ✓ If you have a passion for all things **cloud, strategy, data, insights, analytics, and intelligent solutions** AI & Data is for you!

Deloitte has helped me to broaden my horizons in terms of the knowledge I have developed, the types of engagements I am on as well as the variety of clients I am exposed to. I particularly enjoy that I get to use a combination of soft skills and technical skills on a daily basis.

Taylah Shuker
Intern, Wellington

Deloitte has provided me with the opportunity to contribute to meaningful work, learn from a talented team, and develop a broad range of skills. Everyone is incredibly supportive and generous with their time to make sure you have the tools to succeed.

Matt Goodwin
Analyst, Auckland

The Deloitte team have made me feel welcome and part of the family since day one. Working on a range of project that spans both public and private sectors makes no two days the same and creates a rewarding experience for any new graduate.

Customer Strategy & Applied Design

We're all about working with our clients to elevate the human experience for their people and customers.

High-level summary of what we do:

- **Service and Experience Design:** We take an experience-led approach to innovation, integrating the needs of people, the possibilities of technology and the requirements of business success.
- **Design Research:** We use empathy-led research techniques to understand end-user needs, wants, and behaviours and place what we've heard at the heart of driving innovation and transformational change.
- **Customer Experience Strategy & Design:** We use human-centred principles and our deep understanding of our clients' customers to design a future-state strategy and roadmap which is future focussed and grounded in insight.
- **CX Transformation:** We work with our clients to re-imagine their customer experience through transformation of both their service offering and supporting operating model ensuring they have the capabilities required to deliver value.
- **Design Coaching:** We equip clients with methods, tools, and mindsets to foster collaboration and drive innovation.

We are looking for the following mindsets and skills

- We are looking for those who have a **designers mind-set, whether or not you are trained as a designer**. We use creative, human-centred tools to address a vast range of challenges. It's about how you think and approach problem solving.
- We are looking for those who have a **passion in understanding people** and can dig below the surface to **uncover core needs and motivations**. **Empathy is a key skill**, as is building connections with our clients, their customers and people, and our team.
- In order to gain a deep understanding of the given problem space, we **require strong analytical skills** and comfort in dealing with both quantitative and qualitative data.
- Our clients come to us with complex challenges and thus, we seek those who **enjoy problem solving** and have **the ability to think critically**.
- The **team pride themselves on their collaboration and storytelling skills**, both visual and written. Our ideal candidate is someone who can **confidently collaborate with the team**, build on others ideas and bring these to life for the client.
- An strong sense of **business acumen is desired for this role**, but not a necessity.

Having joined Deloitte a week before going into lockdown, my experience was not what quite what I expected, despite this, it has allowed me to learn and grow in an exciting and varied workplace. I have been lucky that the team have been so helpful and supportive, ensuring that I have what I need to do my best and gain valuable experience!

Lucy Evans
Analyst, Auckland

'My time at Deloitte so far has been a whirlwind of new experiences, from meeting lots of interesting people to facing varied learnings every day, there is always something new around the corner to spark my curiosity. My team were so welcoming and have become a happy place at work to share ideas and laughter together!'

Life in our team

We help our clients best understand the needs and behaviours of their people, be it customers, employees, citizens or external partners.

Project examples include:

Customer and design research, end-to-end experience visioning and re-design, customer experience strategy development, prototyping and testing of future experiences (both digital and physical), workshop facilitation, and Design Thinking training.

Equipped with this insight and understanding of the opportunity spaces, we support them through a co-design process to create an experience that strikes the balance between what is desirable for end-users and, what is feasible and viable for the business.

Digital Customer

Building solutions that help businesses thrive!

What we do:

- ✓ We help clients design and implement **unique and powerful, digital based solutions**.
- ✓ We **support clients on their journey to digital discovery** by keeping up with the latest market trends within the industry.
- ✓ Our focus is on **understanding public and private organisations** using a variety of tools and processes.
- ✓ We work with a variety of Deloitte teams and external vendors to **deliver future focused, high level solutions, integrations and digital transformation**.

What skills & backgrounds are we looking for?

- ✓ We are wanting **self-motivated people who can solve issues in real time**. Problem solving is a frequent part of our day-to-day.
- ✓ We are constantly engaging with our client, helping to derive solutions to issues they are having. **Being able to communicate clearly and efficiently** is an essential skill needed in our team.
- ✓ People who **work efficiently within a team** and show **positive collaboration** skills.
- ✓ We want people who have the **willingness and aptitude to learn new systems** and a desire to grow within Deloitte.

Having switched careers from Medical Device Engineering to Digital Customer at Deloitte, there was definitely a bit of nervousness joining such a big company. However, my time at Deloitte has been nothing short of awesome! It's been an incredibly supportive learning environment, with a great team, and work that is super engaging and challenging!

Chee Qi
Analyst, Wellington

The three things I dreamed for my career after university, I have them all in my day-to-day life at Deloitte: A super supportive team who I can rely on and have fun with, a broad range of projects that challenge my skills and open my horizon, as well as the continuous exposure to the most advanced, life-changing technology!

Pio Fainuu
Analyst, Wellington

Starting at Deloitte, I felt welcomed into this family from the get go. Every day has been filled with fun, challenging and exciting experiences. My team is supportive and easy going! We enjoy each others company playing games and connecting as we munch down a foot long sub (the go to). Life at Deloitte has been life changing.

Life in our team

While a lot of our work is based at client sites, our office environment is always inclusive and exciting.

- With a vast array of projects, our work isn't always local. We get the opportunity to travel nationwide and engage with a variety of clients to **help them achieve their digital goals.**
- Our teams are usually based at the client site, working with them to better understand the **needs and wants for their organisation.**

We love our work but we also enjoy taking the time to step back and connect as a team.

Finance & Performance

We are the consultants who are Finance savvy!

What we do:

- ✓ We help public and private **CFOs and their Finance teams uplift their performance** by designing and implementing solutions tailored to their business
- ✓ On one hand, we help Finance **digitise, adapt, perform better, and grow**, through creating Finance strategies, operating models, and planning, budgeting, and forecasting mechanisms. On the other, we implement cloud based planning solutions (EPM)
- ✓ We establish **long lasting relationships with our clients** and are exposed to a **variety of industries, sectors and people** through our exciting work!

What skills & backgrounds are we looking for?

- ✓ **Analytical and strategic thinkers** who can tackle an issue through a post-it note brainstorm session
- ✓ **Excellent written, soft, and adaptive skills** for communicating clearly with clients and within our team
- ✓ Eyes for **design, creativity and attention to detail** to create professional reports and presentations
- ✓ The ability to handle **ambiguity** and to **think broadly**
- ✓ **Familiarity with accounting and numeracy skills**, but we consider all backgrounds!

I always say that at Deloitte, everyday is different, you have the opportunity to work with a variety of clients and make an impact that matters. Also, everyone here is different and you can be yourself, as your unique perspective is valued and that's what makes Deloitte stronger.

Cas Purdy
Consultant, Auckland

Deloitte has given me endless opportunities to learn and grow in an exciting and challenging environment. I have been involved in sports teams, social events and community initiatives thanks to their genuine interest in the well-being of their people.

Gabriel Dykes
Intern, Wellington

Starting at Deloitte has been a super awesome experience. In 8 weeks, I touched 5 projects across private and public sectors - covering operational overhauls to sustainability. If you love varied and challenging work then look no further.

Life in F&P

Relationships with our clients is everything! We are often at client site running workshops and as a result develop great connections with them

Coffee, coffee, coffee!

Our team culture is what makes us stand out. We often celebrate key milestones within our team, and support one another to develop professionally

Human Resource Transformation

In a nutshell we're all about people!

What we do:

- ✓ We help to design and execute critical HR programs - from business driven HR processes and systems to designing the employee journey
- ✓ We collaborate with clients to achieve excellence through implementing solutions that transform how they organise, develop capabilities and deliver a leading employee experience.
- ✓ We help our clients design and implement leading cloud-based platforms including Oracle, HCM, SAP SuccessFactors, and Workday.

What skills & backgrounds are we looking for?

- ✓ Candidates from a **range of backgrounds and expertise**. Our team has a wide diversity of skills and experience and we encourage candidates from most backgrounds to apply.
- ✓ We work extensively with top level management, and rely on being able to clearly communicate problems and resolutions. As such, we **require excellent written and oral communication skills**.
- ✓ Our Business Unit also requires **analytical thinking**, to think of creative and 'out-of-the-box' solutions.
- ✓ We are striving to become more data driven and analytical, and are also looking for candidates with **strong numerical backgrounds**.

I joined HRT with an economics and politics degree – so no tech at all! The work is really interesting because you get to work with clients on their HR needs, and it includes everything from advice on their culture and capabilities, to implementing HR systems to give them the best employee experience.

Julian Fowler
Analyst, Auckland

Working at Deloitte has been an awesome experience. I've had the opportunity to engage with great clients across a variety of industries. The work we do is very rewarding and its great fun working alongside such a talented and supportive group of people.

Jenny Bhullar
Analyst, Auckland

I joined Deloitte's consulting team with a Data Science background. I found the work very meaningful and rewarding. With Deloitte's SAP cadetship program, I am now learning to synchronize my analytical skills with various SAP offerings to help better support NZ businesses.

Operate

Consulting isn't just about projects, it is also about helping them to run their businesses on an ongoing basis.

What we do:

- ✓ We work with our clients to **run or support their business operations** on an ongoing basis, resolve issues and continuously improve
- ✓ We work with a range of other Consulting people to help them understand and meet their clients' operational needs
- ✓ We work with third parties (e.g. software vendors) to offer **new solutions and services** to clients that help grow their business in line with their strategy
- ✓ We engage subject matter experts to **establish best practices**, to reduce cost, reduce risk and improve service quality

What skills & backgrounds are we looking for?

- ✓ We want people who are **great communicators** to engage technical and non-technical stakeholders on issues and improvements
- ✓ We need people who can **multi-task** in an organised fashion, and understand priorities driven by client and Deloitte needs
- ✓ What we do requires people to **think differently** about how to resolve a problem and encourage better ways of working
- ✓ Our team is growing in scale and breadth of services so **a keen eye for a new opportunity** is encouraged!

I recently joined Deloitte as an Analyst and my experience so far has been nothing less than phenomenal. Each and everyone being it from peers to senior management were so supportive in my onboarding and were ready to help me in best possible way during my induction process even in the most challenging times. I truly feel a part of the Deloitte family and I look forward to my time here.

Indy Monos
Consultant, Wellington

I joined the Deloitte family less than a month ago as a consultant. Everyone has been super helpful and friendly during my onboarding process and day-to-day. Even during Red Alert where we have working from home days I know I can always reach out to someone if and when I need to. I'm so happy to be part of such a supportive company.

Life in our team

We like to get things sorted! Most of our work revolves around listening to our clients and helping them with existing services and new opportunities

- Operate is all about **understanding our clients' needs**, sometimes more than they know themselves
- Every client brings different challenges, so an **ability to react, accommodate and deliver** is critical within this team
- We spend lots of time talking with our clients and other Deloitte people so **frequent communication** is essential to our business
- We are currently based in **Wellington, Auckland and Manila** and looking to grow.
- Some examples of our work:
 - We manage the platform that runs bowel cancer screening for the whole country – making a **real impact on New Zealanders' health**. Further cancer types will be added too.
 - We manage the system that authenticates every user of Inland Revenue's tax systems, **keeping this vital function secure**.

Delivering results is crucial to us! We recognise a job well done and encourage our values across the whole team

We're not just about keeping the lights on, we're about making them shine brighter!

Operations Transformation

Helping our clients transform the way they operate!

What we do:

- ✓ Our mission is to **enable organisations to transform their operations** by leveraging cloud, agility and lean.
- ✓ Our technology-based teams re-design core processes, re-structure organisations, and **deliver significant technology-enabled solutions** for our clients.
- ✓ If you enjoy **creating future-facing solutions for complex business problems** with a focus on the Banking, Insurance, Healthcare & Public Sector industries, Ops T is for you!

What skills & backgrounds are we looking for?

- ✓ People in our team are **curious about the way things get done**. Seeing the big picture and knowing how to break it down into smaller parts is key.
- ✓ You have **excellent written and oral communication** skills, confidence to speak up and share your thinking, and you understand the importance of collaboration.
- ✓ You demonstrate the ability to **think analytically**, conduct data-driven problem solving and utilise creative 'out-of-the-box' thinking.
- ✓ You have some **technical skills**, are fascinated by new tech, and are interested in exploring how technology enables businesses to succeed.

Recent joiners and their experiences:

Jasmine Thach

Since joining Deloitte, I have had an overwhelming amount of people reach out to provide a friendly face and support. It has been so rewarding connecting with others who have different experiences and insights.

Maddy White
Senior Consultant, Wellington

I boomeranged from consulting to client-side (public sector) and back. It is really rewarding to work alongside talented, supportive and driven people who genuinely want to make an impact for their clients.

Garth Tunnicliffe
Analyst, Auckland

The three things I love most about my role are the people, the projects and the variety of work. Since starting, I've made a meaningful impact across the public and private sectors, in industries spanning everything from energy to local government, and many more in between.

Life in our team

We operate in a hybrid way that depends on what our day looks like – on site working with our clients, in the office or working remotely

We are a team where people want to work, feel included and are connected to our Purpose

- Our team is all about helping our clients clearly articulate the work they do, why they do it, and helping them understand where and what they can improve.
- We're always learning from each other. Our regular team catch-ups help us keep in touch and share knowledge and lessons learned.
- Our team has a strong focus on developing new skills, keeping ahead of industry trends and growing subject matter expertise.

Organisation Transformation

In a nutshell we're all about people!

What we do:

- ✓ We help to **design and implement people programs**, for example designing new and exciting talent and change programs across both the public and private sector.
- ✓ We help **organisations align to their strategy and business model**, making the most of both people performance and business results.
- ✓ We **develop organisational and talent strategies and programmes** which help businesses to achieve their objectives.
- ✓ We design all aspects of work in a way that **allows people to find meaning** in the work they perform.

What skills & backgrounds are we looking for?

- ✓ We want people from a range of backgrounds and expertise - **our different perspectives and experiences are what make us valuable to our clients.**
- ✓ We often work with top level management, and rely on **being able to clearly communicate problems and resolutions.** This requires strong written and oral skills.
- ✓ Our work requires analytical thinking, to come up with solutions that are **creative and 'outside-the-box'.**
- ✓ We're striving to become more data driven and analytical, and are also looking for candidates with **strong numerical backgrounds.**

My experience at Deloitte so far has been engaging, exciting and varied. My team has been super welcoming and supportive, and it is awesome to be surrounded by people who have such a contagious passion for their work!

Michelle Goh
Analyst, Wellington

Since starting at Deloitte, no two days have been the same. I've been able to work alongside passionate and supportive people on a variety of different client projects. The Team is really social getting together for breakfasts, quizzes and baking to name a few activities!

Tom Roberts
Intern, Wellington

Deloitte has been a generous and exciting place to work. I've been supported with a buddy and coach who have tailored my internship to be a rewarding experience. I have had the opportunity to work with range of high-level people on a variety of different projects which has been a fantastic experience.

Life in our team

We like to get involved! Lot's of the work that we do is based at client sites and in workshop formats.

- Organisation Transformation is all about **getting to know our clients and their needs** to collaboratively come up with the best solution.
- Every client is different which means that every project is different. **Our work is fast paced and variable.** No one day is the same.
- We spend lots of time at our clients place of work to **better understand them.**

Being part of a team is important to us! We like to celebrate success and love a bit of friendly competition.

Portfolio, Programme & Project Management

Bringing together the best of Deloitte to help clients successfully deliver!

What we do:

- ✓ We **lead and manage complex programmes and projects** through leveraging our proven delivery and PMO experience, best practice methods, and diverse team skillsets.
- ✓ We **advise clients on how to uplift their own Portfolio, Programme and Project Management (P3M) capabilities** using key frameworks, tools and our own practical experience.
- ✓ We **work closely with our wider Deloitte teams** to support organisations with delivery of complex or transformational change.
- ✓ We **bring together end-to-end product management** that transforms how our clients engage with their customers through digital products and services.

What skills & backgrounds are we looking for?

- ✓ We need a team who **enjoy planning, leading & coordinating key activities** to support successful programme & project delivery as well as P3M advisory engagements.
- ✓ Our work often involves **working in diverse teams** with different skills and experience - we need team players who can be part of the “glue”, **bringing energy and collaborative culture** to delivery of complex engagements.
- ✓ We work closely with governance bodies, and rely on **being able to track and clearly report on progress, risks, issues and other key project management dimensions** to support decision makers and key stakeholders.
- ✓ Our team doesn't mind **getting hands-on** and **serving in various delivery activities** to help teams get things across the line.

Recent joiners and their experiences:

I have been with Deloitte for a little over a year now, and I have never witnessed a team that is as dedicated and passionate about what they do. I have had the pleasure of working across multiple different projects and technologies, which has helped me upskill and learn about the practice. It has been extremely challenging, but even more rewarding. The team has been supportive, welcoming, and understanding, I couldn't ask for anything better!

Chystal Rains
Project Controller, Wellington

The best part of working at Deloitte is 100% the people. They just embrace you and provide a fantastic platform of support that gives you the confidence to dive into the work and excel. There are so many opportunities to grab a hold of from upskilling and career progression to working on projects that are making a real difference. I have been super fortunate to get to work on projects that connect me not just to the office but to some amazing people all over the globe. I'm excited to see where the future will go!

Strategy & Business Design

In a nutshell, we're passionate problem solvers who like to collaborate with clients to drive real change !

What we do:

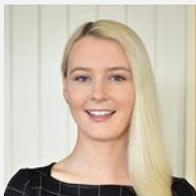

- ✓ We help clients to **design their strategy and re-imagine** the way their organisation is configured to deliver on its strategy.
- ✓ We advise clients around **market trends, technological changes**, and other **disruptions**, and clarify what these mean for their organisation
- ✓ We enable organisations to fundamentally change the nature of their business through supporting **mergers and acquisitions**
- ✓ We support New Zealand based and international organisations **harness opportunities**, and **make an impact that matters**
- ✓ We create **future-facing solutions** for complex business problems with a focus on the Banking, Insurance, Healthcare & Public Sector industries.

What skills & backgrounds are we looking for?

- ✓ Excellent written and oral communication skills
- ✓ **Strong quantitative skills** with the ability to collect data, transform into useful information to understand and analyse problems
- ✓ A passion for upholding **Te Tiriti** and incorporating a **Te Ao Māori approach** into the work that we do
- ✓ **Creative** or '**out-of-the-box**' thinkers
- ✓ A desire to seek out opportunities to **continually learn** and bring a **positive outlook** to new challenges
- ✓ Our team have **diverse backgrounds, skills and experience** and we encourage all sorts to apply!

Recent joiners and their experiences:

My first six months at Deloitte have been a fast-paced and rewarding introduction to consulting. There are always opportunities to grow, as you work on varied projects and alongside a range of senior leaders who are invested in your learning and development. I felt immediately welcomed into the S&BD team and have been impressed by the range of skills and backgrounds that each member brings.

Deepak Manchaiah
Consultant, Wellington

Joining Deloitte was a logical step for me and it provides an environment to learn, reflect, and grow. Deloitte creates a fun-filled working environment and I have experienced a perfect balance of professional and personal life.

Ezekiel Fiso
Intern, Wellington

Deloitte has given me a breadth of insights into what it's like to work in a leading global provider. The relationships formed across staff made the transition from university to the workforce incredibly easy. Deloitte has taught how to stay comfortable in ambiguity and equipped me with the transferrable skills to tackle a variety of problems.

Hourua Pae Rau – Strategy & Business Design

Titiro atu ki nga taumata o te moana – Look beyond the horizon to the future

What we do

- ✓ We create tailored outcomes **by Māori, for Māori and with Māori**, by shaping organisational strategies, operating models and supporting business transformation
- ✓ We support government agencies to better **fulfil their obligations as a Treaty partner**, improving outcomes for Māori by taking a Te Ao Māori approach to our mahi.
- ✓ **We co-design and implement** transformative strategies that help Government remain agile and responsive to Māori, gathering data and information, and creating and presenting project deliverables.
- ✓ We serve as **trusted advisors to our clients**, partnering with them to bring a Te Ao Māori perspective and understanding to support clear enterprise choices about where to invest and how best to affect change to **improve outcomes for Māori**.

What skills & backgrounds are we looking for?

- ✓ A passion for **Te Reo** and **Mātauranga Maori**
- ✓ Combining logical thinking with creativity to approach **problem-solving** in a unique way
- ✓ A passion for upholding **Te Tiriti** and incorporating a **Te Ao Māori approach** into the work that we do
- ✓ **Excellent communication** and **interpersonal skills**
- ✓ A desire to seek out opportunities to **continually learn** and bring a **positive outlook** to new challenges

Rongomaiwahine*

I joined Deloitte for opportunities to grow and learn quickly. I get opportunities to work with a range of clients on complex problems that have a direct social impact. Hourua Pae Rau offers me the opportunity to grow in my culture and understanding of Te Ao Māori while supporting organisations to do the same.

Technology Strategy & Transformation

Every business is a technology business. If you want to help organisations leverage technology to drive business value, TS&T is for you!

What we do:

- ✓ We **co-create with clients to shape and operate technology** in a world of exponential change to generate business outcomes.
- ✓ We **advise organisations on technology leadership, strategy and transformation**, creating the bridge from business strategy into technology.
- ✓ We help our clients **lead and manage complex programmes and projects** to support them creating the future of work.
- ✓ We help our clients to **reinvent their ways of working in the age of digital** – better value sooner safer happier.

What skills & backgrounds are we looking for?

- ✓ We want people from a range of backgrounds and expertise - **our different perspectives and experiences are what make us valuable to our clients.**
- ✓ We want people who are **passionate about technology** – not just the latest gadgets but emerging trends that have the potential to change the way we work, live and communicate.
- ✓ We often work with top level management, and rely on **being able to clearly communicate problems and resolutions.** This requires great interpersonal skills and the ability to thrive in collaborative environments.
- ✓ We want people who have **a sharp and analytical mind and a thirst for learning**, to come up with solutions that are **creative and 'out-of-the-box'.**
